TEXT BOOK: INTERMEDIATE ALGEBRA 7th Ed. AUTHOR: Charles P. McKeague

GRADING POLICY: You will be taking five examinations during the semester. The first two tests will be given before midterm grades are due; that is before March 11th. The average score you receive on Test 1 and 2 determines your Mid-Term grade. Test 3 and 4 will be given before the last day students can withdraw from the course, April 19th. Test 5 will be given on the last week of the semester, Tuesday, May 4th. Your final grade will be determined by taking the arithmetic average of the best 4 test scores.

NOTE: DEFINITIVELY, NO MAKE-UP TESTS.

Homework: To become proficient in Mathematics, students must do their homework. If you devote the proper time to do homework and review it, you will become effective and confident when the tests come around. Mathematics is accumulative, if you miss a homework assignment, the subsequent material will be difficult if not impossible to comprehend. DON'T BE LATE FOR CLASS AND DON'T MISS CLASS.

GRADING SYSTEM: 100 - 90 = A
89 - 80 = B
79 - 70 = C
69 - 60 = D
59 and below is an F
CLASS PROCEDURE:

The classes will be conducted as follows: I will lecture on a particular section(s); after the lecture, I will assign homework and you are responsible for the homework assignment for the completed section(s). On the following class session, we will discuss the homework from the previous lecture (ask questions at this time). When all questions are answered, I will lecture on new material for that particular day.
