

CERTIFIED WIRELESS NETWORK ADMINISTRATOR

The CWNA® (Certified Wireless Network administrator) certification is a foundation level wireless LAN certification for the CWNE Program. CWNA is your starting point for a rewarding career in wireless. Earning your CWNA allows you to demonstrate that you have the skills necessary to administer, install, configure, and troubleshoot wireless network systems. Review the industry standard for CWNE certification

http://www.cwne.com/about/industry_standard.html

Benefits of Your CWNA Certification

- ◆ Opens the door to wireless networking opportunities in the enterprise.
- ◆ Offers a career differentiator, with enhanced credibility and marketability.
- ◆ Shows that you are a technical leader with the ability to successfully implement wireless solutions for your organization or client.
- ◆ Keeps your skills ahead of the curve in the rapidly changing field of networking

Your CWNA certification will get you started in your wireless career by ensuring you have the skills to successfully administer enterprise-class wireless LANs.

Our expert is a CWNA with extensive, real-world, wireless implementation experience as well as being a veteran instructor and courseware designer.

This hands-on class has 15+ labs to give you the chance to use wireless products from vendors like Cisco, Proxim, Colubris, Symbol, Netgear and more. **35 hours** **\$2495**

PREREQUISITES:

Network+ certification or equivalent industry experience
Call 773/481-8899 for assessment to enter the program.

Catalog ID# 2278
Monday thru Friday
9:00 AM - 5:00 PM

Class # 22743
9/14/2009—9/18/2009

Sock
Room S307

Topical Course Outline:

Radio Frequency (RF) fundamentals
RF Math and System Operating Margin
RF Power Output Regulations
Hardware Installation, Configuration, and Management
Antennas and Accessories
Power over Ethernet
Organizations and Standards
802.11 Network Architect
